

The Impact You Can Make

Carefully invested by Ronald McDonald House Charities® of New England, your planned gift can help families year after year. You could provide a family with a place like home for months while their child receives life-saving medical care. Additionally, your gift could provide love and support to a family whose child is undergoing weeks of vital treatment or meeting with their doctors for days of essential follow-up care.

Make a Lasting Difference

It's easy. Helping families can be as simple as adding a sentence to your existing will or adding Ronald McDonald House Charities® of New England on a beneficiary form.

You have flexibility. Your gift can be a percentage so it remains in proportion to other desires you wish to fulfill. It can also come to our organization only after your other needs are met.

You have options. Your gift can be unrestricted, placed in our endowment, or you can choose to help fund a specific program.

Every gift will have a profound impact. Whether your gift is \$5,000 or \$500,000, our families are grateful for every day that they receive the support they need. There are many ways to help!

Keeping families close®
